

JANUARY 2026

Follow our commitment to sustainable change

EU - WASTE PROJECT

NEWSLETTER

About EU-WASTE

EU-WASTE is an Erasmus+ Small Scale Partnership in the field of Adult Education that promotes sustainable waste management by engaging municipalities, organisations and adult learners.

Focusing on **urban and food waste**, the project develops awareness tools, shares good practices and supports community learning to foster **environmental responsibility and a more circular society**.

“

What happens to our waste once we throw it away?

”

European cities face growing waste and low awareness. **EU-WASTE was born to bring citizens, authorities, and organizations together to rethink how we treat waste.**

By giving citizens access to practical resources and training, we turn knowledge into everyday action for a cleaner, greener Europe.

JANUARY 2026

Follow our commitment to sustainable change

Hosted by Rezos Brands SA

Kick-off meeting in Patras, Greece

The **EU-WASTE kick-off meeting** took place in Patras, Greece, on 11–12 December 2025, hosted by Rezos Brands S.A. The project is bringing together partners from Greece and Spain to promote sustainable waste management.

During the meeting, partners presented the project's two main focus areas, urban waste management and food waste management, and agreed on the next steps, roles, and upcoming activities, marking a strong start for a productive collaboration.

Launch of the EU-WASTE website

The official EU-WASTE website is now online and serves as the project's central communication hub. The platform provides information about the project, partnership, activities and objectives, as well as news updates, visual material and access to EU policy resources related to waste management and sustainability. The website will be regularly updated throughout the project to ensure transparency and continuous engagement with citizens and stakeholders.

Visit the project's website: www.eu-wasteproject.eu

What's Next?

In the coming months, **EU-WASTE** will focus on **awareness and community engagement activities**, including the development of **visual infographics, short awareness videos**, and online and local **discussion forums** addressing urban and food waste challenges. A **study visit** will also be organised to support the **exchange of knowledge and good practices among partners and local stakeholders**.

Stay connected and follow the project's progress through our official social media channels & website.
